

## Quality Policy

The EC Electronics Group is focused on the provision on Electronics Manufacturing Services (EMS) to a wide range of Customers and industries.

Quality is integral to all working practices and we consider this critical to the success of our business.

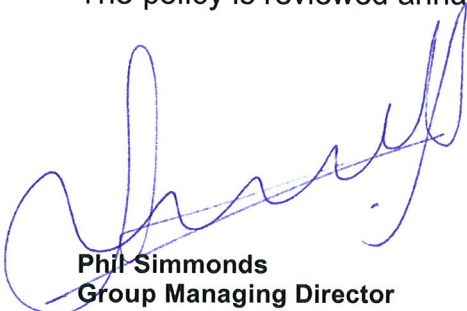

The Directors of the Company recognise their responsibilities under ISO9001:2015 and provided resources to effectively manage the system.

Our key quality principals are:

- Provide a professional service to its customers through timely response and provision of expertise and cost-effective solutions
- Meet Customers' contractual requirements and other applicable requirements
- Support a Process Approach, utilising the Plan, Do, Check, Act principals
- Continual Improvement
- Proactively identify and assess risks to quality
- Drive out waste and maximise cost efficiencies

To support this policy measurable objectives are set, communicated and monitored throughout the organisation.

The policy is reviewed annually by top management.
